

## 2022 Mesa County Safety Fair Exhibitor Descriptions

Organization		Exhibit Description
1	Grand Valley Power	Safety around electricity - High-Voltage Electricity Safety Demonstration. Exhibit is a tabletop demo of electric power lines and how to stay safe around them. We will be including handouts (sticker sheets) that show the various safety equipment used by lineworkers, along with pencils.
2	Colorado State Patrol	We will have a patrol vehicle and multiple swag items to hand out. We will be promoting traffic safety.
3	Mesa County Solid Waste Management	Being safe around household hazardous waste
4	Western Colorado Area Health Education Center	Prescription drug safety
5	Mesa County School District 51	I will be providing information about Safe2Tell, a statewide reporting system. I will have a short video playing and display information for Safe2Tell. Handouts provided are bookmarkers with Safe2Tell information.
6	Hilltop Family Services	Car/Booster Seat Safety, Video and Questions for safety fair participants, handouts will be stickers.
7	Mesa County Animal Services	Bite awareness and animal safety. We have a wrapped department truck that can be displayed. Stickers for bags and booth. Dog treats and pamphlets for grab bags as well. Possibly more items. Officer will be at booth to speak/talk about strays, and bites mostly. Answer questions. We have a trifold display board for table and pamphlet holder. Maybe some stuffed or display items like stuffed animal dogs, pet carriers or a small trap.
8	Xcel Energy (Natural Gas)	Our exhibit demonstrations teach how we get natural gas to homes, as well as safety equipment we use and which homeowners should have to tell when something is wrong in the house. We will have a classroom setting with a demonstration table that will show how gas flows, as well as an air line to represent a cut gas line and what we do to make it safe. Our hand out that will be in the handout bag uses a 15-page pamphlet that promotes gas safety using some coloring pages.
9	Mesa County Local Emergency Planning Committee	The Mesa County Local Emergency Planning Committee (LEPC) works with the community to identify industrial hazardous materials and keep the community informed of the potential risk. Our exhibit will cover how to properly shelter-in-place at home during a chemical emergency in the community and will provide a handout describing how to put together an emergency kit for your home.

10	Xcel Energy (Electric)	<p>Lineman will be using a Power Town Model to demonstrate and explain the hazards of electrical contact with the below examples.</p> <ul style="list-style-type: none"> <li>• Contacting overhead lines with an antenna,</li> <li>• Contacting overhead lines with a kite,</li> <li>• Contacting overhead lines with a metal pipe,</li> <li>• Contacting overhead lines with tree limbs,</li> <li>• Contacting buried lines,</li> <li>• Contact with a padmount transformer,</li> <li>• Energizing a vehicle with a fallen overhead line,</li> <li>• Energizing a metal fence with a fallen overhead line, and</li> <li>• Contacting a house service drop with a metal ladder (exploding pole transformer).</li> </ul> <p><a href="https://mooresyndicationstore.com/products/powertown-4-foot-model">https://mooresyndicationstore.com/products/powertown-4-foot-model</a></p> <p>A video will also be shown on a larger scale of actual contacts with live voltage to represent what the dangers are in real time vs the model.</p>
11	Crime Stoppers of Mesa County	<p>We will involve students in an interactive activity regarding safety issues; personal safety, home and phone safety, as well as safety in the community.</p> <p>Board members will discuss the Crime Stoppers program and how it works encouraging students to be responsible and report crime when they see it.</p> <p>We have ordered activity/coloring book to be included in the swag bag.</p>
12	Grand Junction Police Department	<p>The Grand Junction Police Department would like to have a police car for children to climb around in. We'd also like to have our Grand Junction Regional Communication Center present to talk to children about when and how to call 911. We will have stickers and magnets to hand out.</p>
13	Western Colorado Contractors Association	<p>Western Colorado Contractor's Association Members encourage safety in and around construction areas including road safety, underground safety, building safety and equipment safety. <b>Get your hard hat at the beginning and tour the world of safety in construction.</b></p> <p>Exhibit description: directional guided course that takes students from front table, through a trench simulator (open top- walk through), a fall safety area with tv presentation, heavy equipment "touch a truck", then back out of the exhibit. Each student will be given a construction hat from booth.</p> <p>Handout items are hardhats (plastic) from booth, and Grand Valley Bank pencils in the gift bags.</p>

14	Mesa County Road and Bridge	We will be discussing blind spots (equipment and vehicles). We have temporary tattoos and candy that will be in the bags. We will also handout candy at the booth.
15	St. Mary's Medical Center	Bicycle Safety and Hands only CPR
16	Mesa County Sheriff's Office/ Citizens on Patrol	Law Enforcement safety tips geared for children.
17	Colorado Mesa University/WCCC EMT	Be Safe-- Be Smart- Be Prepared . EMT's will have CPR manikins out to teach CPR to kids.
18	Mesa County Traffic Services	Teach the kids how to safely cross the street at a signalized and unsignalized intersection
19	Colorado 811	811 call before you dig. I will have a TV to play a safety video, and have small handouts like business cards, color code cards, and candy.
20	Grand Valley Brain Injury/Epilepsy Support Group	Our booth will be displaying the importance of wearing helmets correctly in order to protect the Bain from Injury. This is a hands-on activity. The children can actively participate by looking into a magnifying glass and try to stay within the lines of a displayed diagram, such as a star. There is also an activity which requires the children to wear gloves and find a small object such as a key or paper clip hidden within a tub of rice. Both of these activities are meant to show the possible results which may occur after a head injury. Please note, gloves will not be used more than once, and sanitizer will be used to clean pencils.
21	Colorado Mesa University BSN Nursing Program Students	The topic of the project is Germ Safety and the importance of proper Handwashing.
22	Cabela's (Hypothermia)	Join Cabela's staff in our hypothermia demonstration in which kids will learn about the symptoms, preventions, and what to do if they come in contact with someone with whom they think might has hypothermia. A hands-on activity will include five-gallon buckets filled with ice water and marbles at the very bottom. The kids will be able to see how hard it truly is to grab the marbles at the bottom of the bucket even after having their hand in the water for only a few seconds. Additionally, we will have a poster board and a PPT slide show discussing the dangers and safety precautions of hypothermia.
23	Cabela's (Gun Safety)	Basic safety and guidance about how to handle yourself around guns, including what to do if you find a gun that is not locked away.
24	Western Colorado Red Cross	We will present home fire safety and disaster preparedness.
